

Never Say Never

Thundamentals

If I had the answer I could make it better
Give you everything you wanted just so you would stay forever
Instead I say never say, never say never
Never say, never say never, never ever

Yeah, shout out to my mother, shout out to my mother
She never told my pops about the stash of marijuana
That was hidden in the cupboard, lifted like a buzzard
Rapping for the fuck of it, I'm dumber than a Finna bring the ruckus, we're
not singin' for my supper
Funky as a drummer from the city to the suburbs
I tell you what is absurd, we spun a couple verses
For the lovebirds, now Thundamentals is the buzzword
Finger on the buzzer, but we ain't seein' dollars
Feelin' pretty far from baller, still I'm pickin' up your daughter
In a '94 Corolla and I'm reppin' it regardless
The motor on, it's older than a fuckin' penny farthing
If you sellin' out your concert then they rollin' out the carpet
While you chillin' at the summit don't forget to get your arse kissed
'Cause one minute it's poppin', next you're sittin' on a park bench
Literally starving, reminiscing on the past tense

If I had the answer I could make it better
Give you everything you wanted just so you would stay forever
Instead I say never say, never say never
Never say, never say never, never ever
It's the modern day era, so I can be anybody
Got me sippin' on liquor, today I'll be an artist
Instead I say never say, never say never
Never say, never say never, never ever

Fuck it
If it didn't kill me, then it's gonna make me stronger
One day I'll make a killin', you should probly date a daughter homie
Let's be honest I am waitin' on a coffin
I already got a body like shotguns
Save it judge, call me later when the cops come
Blame it on the funk, baby shake it if you got some
Baby if you want, but my lady knows I got love
So if she wants some brain I ain't singin' her a love song
I ain't in a hurry, I ain't bankin' on no pot luck
Till we bathe in milk and honey naked in a hot tub
Sippin' champagne, maybe we can get a top up
Gettin' busy all day, high as helicopters
Flyin' on a jet plane On my way to Cali, gonna blaze one in the hot sun
Add a dash of lemonade and lime to my vodka
Got a genie in a bottle, still I'm dreamin' that I was one

If I had the answer I could make it better
Give you everything you wanted just so you would stay forever
Instead I say never say, never say never
Never say, never say never, never ever
It's the modern day era, so I can be anybody
Got me sippin' on liquor, today I'll be an artist
Instead I say never say, never say never
Never say, never say never

'Cause just when you think
That you lost it so you toss it in the trash
Lean back and watch it blossom in your hands
Lean back, never say, never say never
Never say, never say never
Whatever you think, think the opposite of that
Kick back and watch your opposite attract
Lean back, never say, never say never
Never say, never say never, never ever

If I had the answer I could make it better
Give you everything you wanted just so you would stay forever
Instead I say never say, never say never
Never say, never say never, never ever
It's the modern day era, so I can be anybody
Got me sippin' on liquor, today I'll be an artist
Instead I say never say, never say never
Never say, never say never, never ever
