## Thundamentals

I'm out of space like Pluto  
Boss like Hugo  
Throwing round my weight like judo  
Homie you ain't in my lane  
I be swerving snakes like you though  
On a late-night kudos

Get the fuck up out my way

Fake news  
Click bait  
Piss take  
Rick rolled  
Chopping up  
Chopping up  
Chop it up  
Pesto  
Stay tuned  
Shit stain  
Fixate  
You sold  
Hook line and sinker  
Let's go

I'ma mind my P's and Q's  
I'ma keep it cool when I read the news oi  
I just wanna seek the truth  
I don't need to feed the wolves woof  
Biddy bye I won't be the fool  
Don't say my name like Beetlejuice  
I'ma strike like lightning liken me to Pikachu  
Peek a boo  
I ain't got shit to prove  
Cause I ain't got shit to lose  
When I lit that flame  
I just wanna lift that mood  
So I'm gonna bring that bang  
In a twist of fate gonna risk it all  
Gonna kiss the dirt 'till I'm one with earth  
Undisturbed in my thunderbird  
I just wanna ditch the cage  
I wanna unfuck the world  
I just wanna love my girl  
Just wanna drift away  
Shift the frame  
Is it too late for shit to change?  
Switching lanes  
Can I make shit right with a makeshift mic  
When I hit the stage can't fake the fight  
Gotta move with grace  
Take my time cause baby

Let me run it up  
Like a running back  
Chuckling laps like it's Nascar  
No flash flash for the camera  
Mad stamina like a track star  
Hold a seminar how to rap hard  
Wild out David Attenborough  
What's ya plan brah?  
This is liquid  
Wet ya mans up  
Warragamba  
Like damn  
I am the man  
These rappers they sound like spoofs  
I run with wolves  
Howl at the moon  
You is a goose  
Not in the mood to be suffering fools  
You want the smoke  
I got the choof  
You can get rolled like piff in a jar  
Vroom vroom vroom  
You all sound gassed  
I fill up my tank then dip in the dark  
Yo Is it bizarre to want a menage  
With Nicki Minaj and my baby ma?  
Feeling myself when I'm killing these bars  
Permission to bust on a mission to mars  
Steez on lock  
Elon musk  
Misunderstood with a brilliant mind  
Open your eyes  
When I've written these rhymes  
Ahead of my time by a million miles  
Won't catch me slipping like Michelin tyres  
Gripping it tight when I'm ripping this mic  
Not giving a shit if you feeling this vibe  
I'm a different type busy living my life  
Spitting it hype off tip of my tongue  
Fire and brimstone snipe like gun  
Powder I'm outer space like sun  
Cause I shine like one

I'm out of space like Pluto  
Boss like Hugo  
Throwing round my weight like judo  
Homie you ain't in my lane  
I be swerving snakes like you though  
On a late-night kudos
