Thundamentals

Check it

Yeah, yeah
Here's your mission if you choose to accept it
Wreck shit and take hip-hoppers on a head trip
Connect with the lyrics of the boldest spy
Who seen it all through the vision in his golden eye
Patrol the mic, I buss, girls blush when I go by
So fly, strutting in a tux and a bow tie
Oh my, that MC's nice with the similes
High class imagery like riding in limousines
Striving, a killer bee, my rhyming abilities
Akin to a knife or a slice from a guillotine
A night on the illing spree, I wait till the day's dark
And take out your main guards who laze up in the graveyard
Way to a great start sprayed over eight bars
Stay large, grew up with a face that can break hearts
Play cards close to my torso, you'll know
The flows top secret, we speak in Morse code
MC's are awful, so we keeps it thoughtful
His stone cold poems that could freeze the North Pole
I roll like a villain with them criminal links
Flee the crime scene quicker than invisible ink

"Today [?] special"
"Boom boom boom" "I hit him on the left
And I smacked him around a few times" "Oh God"
"Today [?] special"
"I'm a master"
"Boom boom boom" "I hit him on the left
And I" "Smacked him 'round his f*cking head"

I got fire in my belly, ever-ready for the next move

Double-oh-seven dude decked in a fresh suit
Let loose, this is Tuk, snatch [?] Jeswon
Suckers wanna test, best check before they get stung
Set numb like I spat venom out my left lung
Head slung back, rappin' shrapnel out my right one
Yo, I'm on a spy hunt, lock and load
Drop the flow, bomb shit like Dr No
So if you don't know, bro, then you gots to go
Vacate to a safe place when you spot the smoke
Mayday, I'm the man with the golden gun
They say I'm quicker then the hands that I stole it from
Take aim and [?] on my [?]
Eagle eye, knocking off that evil guy or [?]
Real life potshots, snap of the rhythm
If anyone asks I say I got a license to kill it
Aw shit, Octop*ssy's looking like a lost kitten
Let's go back to the pad and watch the plot thicken
What? I'm not kidding, I'm [?] and I'll never forget
Still at the end of the day never say never again

"Today [?] special"
"Boom boom boom" "I hit him on the left
And I smacked him around a few times" "Oh God"

"Today [?] special"
"I'm a master"
"Boom boom boom" "I hit him on the left
And I" "Smacked him 'round his f*cking head"
"Then [?] kick him down the stairs

Come on, you scared? Gonna come up here?
They wanna [?] him
Forget about it
Smack him 'round his f*cking head"
