

## Have Mercy

Thunder

Have mercy, if you please  
Have mercy on a man like me  
You're every inch a woman  
But you're barely seventeen  
Have mercy, baby please

Girl you got to have mercy  
Understand  
I can't see you  
Shouldn't hold your hand  
I hear the people talkin'  
All I hear is bad  
Have mercy, 'cause I'm just a man

Alright  
Hold on  
Hold tight  
I'm beggin' you please to  
Have mercy, like I said  
The moves you're making  
Gonna make me lose my head  
Don't know where you learned to love  
But this old car ain't fast enough  
Have mercy, in my double bed

Oh, baby please  
Have mercy on me  
I can't love you

Have mercy, set me free  
There ain't no future for you and me  
Everybody knows it  
Why can't you see  
Have mercy, baby please

You're way too young  
We can't carry on  
Don't make me love you

You're young and pretty  
I'm hypnotized  
Shouldn't want her  
For my weary eyes  
I couldn't fight it  
I should run  
So I can see heaven's door  
Your momma's at the door  
She's waiting for you  
Me, I don't think I can do this anymore
