

# Miracle Man

Thunder

You know that I see it in you  
A need for something more  
Your pockets are loaded down  
But your spirit's surely poor  
I'm the solution you need  
You don't know it now  
But I'm the interface  
Between you and higher power

You much do you want it?  
How much can you give?  
I can make you better  
Teach you how to live  
Take you to the river  
Wash you sins away  
I head with my hands  
I'm a bona fide miracle man  
That's what I am

Whatever your pain is  
Trust me, I can make it right  
I'm a witness  
I was born with second sight  
A contribution will help me light the way  
Salvation is just a debit card away

Lift you from the fire  
Raise you to the sky  
Ease your guilty conscience  
Ease your troubled mind  
Pull you from the wreckage  
Heal your broken life  
You know that I can  
I'm a sharp-shooting miracle man  
Yes I am

You better believe it  
I sit at God's right hand  
I'm a miracle man

To the non-believers  
Calling me a fake  
I say repent now  
Before you make a big mistake  
Hell and damnation  
Is a price you're gonna pay  
If you don't leave  
While you can now  
It might go to trade

You much do you want it?  
How much can you give?  
I can make you better  
Teach you how to live  
Take you to the river  
Wash you sins away  
You know that I can

I'm a miracle man  
That's what I am  
Lift you from the fire  
Raise you to the sky  
Ease your guilty conscience  
Ease your mind  
Pull you from the wreckage  
Heal your broken life  
I heal with my hands  
I'm part of God's great plan  
I'm a fast talking miracle man  
Yes I am

You better believe it  
I sit at God's right hand  
I'm a miracle man
