

# Once In A Lifetime

Thunder

I'm sitting in this bar room  
As they're cleaning round my chair  
Empty whiskey bottle  
Tells me I'm the last one here  
Through my haze I thought I saw you  
Passing on the street outside  
My heart leapt for a moment, and then I realised

I still need your love (one more night)  
If we could be together (just one night)  
That night could last forever(one last time)  
That's all I'm asking baby  
Coz once in a lifetime you find your kinda love  
Your kind of love

It was earlier this evening  
When along came an angel of the night  
She asked if I want a good time  
But all that I could do, was sit and cry  
She said don't worry baby  
Coz it's never as bad as it seems  
I said you don't understand  
She was everything, everything to me

And if I had (one more night)  
If we could be together (just one night)  
That night could last forever (one last time)  
That's all I'm asking baby  
Coz once in a lifetime you find your kinda love

Yeah

Won't you tell me what do did I do wrong  
To make you stay away so long, from my love  
Tell me babe  
Was is it something that I might have said  
I've been running through it my head  
For so long, so long now  
Won't you tell me baby

(one more night)  
If we could be together (just one night)  
That night could last forever(one last time)  
That's all I'm asking baby  
Coz once in a lifetime you find your kinda love

(one more night)  
(just one night)  
We could be together(one last time)

(one more night)  
That night would last forever(just one night)  
You and me(one last time)  
Mmmmm

(one more night) it's all I'm asking for  
(just one night) yeah

(one last time)

Mmmm

(one more night) gotta know now

(just one night) want her back

(one last time)
