

# Retribution

Thunder

I never hated anybody  
I keep an open mind  
Faith's got the better of me  
There was hope 'round every corner  
The sun shorn every day  
I never seen it any other way

Now, my glass half empty  
Love's not a face I know  
Stars I used to reach for  
Are further out in space  
Tell me how much disappointment  
Must I take

'Cause it feels like retribution  
For what I do not know  
Yes, it feels like persecution  
For no reason at all

Stars I used to reach for  
Are further out in space  
Tell me how much disappointment  
Must I take before I break

'Cause it feels like retribution  
For something I have done  
What it is I can't remember  
Must have really hurt someone  
Yes it feels like retribution  
For what I do not know  
Yes, it feels like persecution  
For no reason at all
