

## Wonder Days

Thunder

First day of school they called me a disgrace  
They didn't like the long hair,  
didn't like the face  
A whole lot of rules that had to be obeyed  
Get back in line and stand up straight

But I had my first guitar  
And Hendrix on the wall

All of the kids hanging out in the yard  
Platforms, feather cuts dying to be hard  
I wanted to be older, wanted to be cool  
So I smoked by the gym and lied like a fool

Then came my first slow dance  
And I thought I knew it all

Those wonder days of my life  
When the summer seemed so long  
I won't forget until I'm gone

Every minute lasted hours  
We were misunderstood, just looking for  
something to do

Just like every misfit, started up a band  
Didn't have clue and I didn't understand  
Why all of a sudden there were girls around  
'Cause if the truth be known we could barely  
make a sound

I'm not one for looking back  
But when I do I have to smile

Those wonder days of my life  
When the summer seemed so long  
I won't forget until I'm gone
