

## Bye For Now

Thundercat

Maybe we say bye for now  
But I can't let go  
You call me back and it brings me to my knees  
I can give you what you want  
And when it's said and done  
There's always room for memories  
There's nothing left to give  
I remind that time will slip away  
I know that there's no guarantees  
But we still can dream and be in your deepest thoughts  
I hope that you can find a way to let it go  
Then we can move on

Do these dreams go anywhere?  
Don't say I didn't care  
And though it hurts to say goodbye  
I know what love is for me  
And if it's not bad for you  
Leave alone what we could do

Maybe we say bye for now  
But I can't let go  
You call me back and it brings me to my knees (Give)  
I can give you what you want  
Then when said it's and done  
There's always room for memories (Ooh, ooh)  
There's nothing left to give (Nothing left to give you)
