Thundercat

It's superficial the way that you listen  
Open your ears and your mind  
Just take the time to  
Look a bit deeper  
You'd be surprised what you find inside  
We're only human  
That makes it simple  
But all our lives are complex  
And it's fine  
It's fine

Can you read my mind  
Or can you read my heart  
Cause they're not one in the same  
Your good intentions they're broken and beaten  
Heaven and earth are all one in the same
