Final Fight

Thundercat

Can't miss a beat, gotta stay awake
What's wrong with me, yeah
Can't go to sleep
Insomnia got the best of me
She sees my dreams and I can see hers too
Even though I'm dreaming wide awake
Almost can't feel my face, almost fully numb
Let me out my mind, let's get weird
Through the smoke, through the light
Through the crimes and through the night
I wanna go up, yeah yeah yeah yeah yeah
Follow me, let's go down the rabbit hole
La la la la la, she punches in her sleep

Can't miss a beat, gotta stay awake
What's wrong with me, yeah
It's seven o'clock and I'm trying to leave
Even though she's taking her sweet time
I'm about to snap, crackle and pop
I'll take a few deep breaths
Getting kind of mad, about to lose my shit
Thinking I should jump
I'm jumping out the window, oooh...

Blah blah blah blah blah, she punches in her sleep

Through the smoke, through the light
Through the crimes and through the night
I wanna go up, yeah yeah yeah yeah yeah
Follow me, let's go down the rabbit hole
La la la la la, she punches in her sleep
