

**Hi**

**Thundercat**

Change anything  
Love, death  
{As it should}  
Birth  
{As it should}  
Life  
As it should  
Death (death)  
One more time, are you ready?

Perfection  
Seduction, deception  
Enough with the questions  
Ooh, we running outta time, time, time

Heavy load  
Watch it all unfold

You promised that you'd never die  
Oh, how naive of me  
I wish someone could tell me why  
Why it's so hard to lie from your knees  
I'm down to the bottom of the bottle  
Say hello forever and goodbye tomorrow  
Oh

Children of forever  
Children of forever  
Children of forever  
[Mac Miller:] That sound is so awesome
