

# Borrowed Time

Thundermother

Lights go out the show is over  
Cut the cord and shut it down  
A flashlight shows me off the stage  
And I wave goodbye

Grab a beer and talk it over  
It winds me down and takes the edge off  
Did I do it like I should have  
Did I do enough  
Did I do enough

We've been here before  
Many times around  
Shakes me to the core  
Every single night  
And I want to live forever  
But I know it's just a lie  
It's just borrowed time

Shaking hands with random people  
Taking photos left and right  
Even though my makeup is cracking  
I always smile  
I always smile

We've been here before  
Many times around  
Shakes me to the core  
Every single night  
And I want to live forever  
But I know it's just a lie  
It's just borrowed time

Borrowed time  
Borrowed time  
Borrowed time  
Borrowed time  
Borrowed time  
Borrowed time

We've been here before  
Many times around  
Shakes me to the core  
Every single night  
And I want to live forever  
But I know it's just a lie  
It's just borrowed time  
It's just borrowed time
