

Roadkill

Thundermother

Can you smell my motor burning
Ripping down along the tracks
MPH gonna hit the sky
Buckle up, there's no turning back

My idea will make us rise
Energy right in front of my eyes

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Full speed round the bend
Just broke through three red lights
Can't stop, won't stop even if I could
So now they pay the price

Blood stained tires I can wash away
But not what I've just done
It's a funeral now for the non-human breed
To commemorate his final run

My idea will make us rise
Energy right in front of my eyes

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill
Until your last breath
Roadkill, roadkill
Road's full of death

Roadkill, roadkill

Until your last breath
Roadkill, roadkill
Road's full of death
