

Thunder Machine

Thundermother

Piercing through my skin
The needle tears deep within
Makes me feel alive, tonight

I'm ready for another sting
Can't get enough of this addiction
Press a little harder, louder, louder, stronger

Thunder machine piercing me
Thunder machine digging deep
Thunder machine making me bleed
Thunder machine, all I need

Take me to another place
And watch the look of pain upon my face
It feels so god damn good
And it should

Gonna take time to heal
Until the next fix that I need
But that won't be too long
Coming along, coming along, coming along

Thunder machine piercing me
Thunder machine digging deep
Thunder machine making me bleed
Thunder machine, all I need

Thunder machine
Thunder machine

Thunder machine piercing me
Thunder machine digging deep
Thunder machine making me bleed
Thunder machine, all I need

Thunder machine piercing me
Thunder machine digging deep
Thunder machine making me bleed
Thunder machine, all I need

Thunder machine
Thunder machine
Thunder machine
Thunder machine
