

Thunderous

Thundermother

I can honestly say
I've paid my duties over and over
I choose my way
The road is getting wider

My friends the band is finally here!
We are getting stronger
I won't look back
I'm here to stay

We're thunderous
We're living the life
This is how it should be
We're thunderous
This is payback for me
Now I'm holding the key

I'll take the fight
A struggle for life to play and sing
And I know it's right
When we're on the road like kings and queens

My friends the band is finally here!
We are getting stronger
I won't look back
I'm here to stay

We're thunderous
We're living the life
This is how it should be
We're thunderous
This is payback for me
Now I'm holding the key

We're thunderous
We're living the life
This is how it should be
We're thunderous
This is payback for me
Now I'm holding the key
We're thunderous
We're living the life
This is how it should be
We're thunderous
This is payback for me
Now I'm holding the key

We're thunderous
We're living the life
This is how it should be
We're thunderous
This is payback for me
Now I'm holding the key
We're thunderous
We're living the life
This is how it should be
We're thunderous

This is payback for me
Now I'm holding the key
