

Try With Love

Thundermother

Brick by brick the wall was built
Around me, it was my downfall
Day by day I fooled myself
I'm a loose cannon ball
Inside out, upside down
I was a mess all around
On and on in a roller coaster
Moving at the speed of sound

It's time to turn another page
Time to let go of all the rage

I'm gonna try with love
Gonna try with love
I'm done with anger, I'm done with hate
Pride was in my way
I'm gonna try with love

Two faced life, played and got played
Messed with others feelings
Blinded by who I am
And now I've hit the ceiling
What's the point in putting people down
To boost your own ego
Breathing in, blasting out
Blabbering like a torpedo

It's time to turn another page
Time to let go of all the rage

I'm gonna try with love
Gonna try with love
I'm done with anger, I'm done with hate
Pride was in my way
I'm gonna try with love

I'm gonna try with love
Gonna try with love
I'm done with anger, I'm done with hate
Pride was in my way
I'm gonna try with love
