Wasted

Thundermother

Wanna be where the lightning strikes
Thunderbolt city tonight
Just one, and that's not enough
'Cause it's time that I live it up

I tell ya
Fill my cup, give me all you've got
My blood is burning, I'm on fire
I'm getting
So hot reaching for the top
I feed on love and your desire

One shot, give me what I need
Take me for a ride on the wild side
One shot, take it to the top
Give me all you've got cause I'm running wild
Getting wasted, wasted
Wasted on a love and it feel so good
Getting wasted, wasted
Fill me to the brim I wanna drink that shot

Night is young and the streets are ours
Gonna raise some hell tonight
Grab your glass, 'cause we're not done
When we party we party right

I tell ya
Bottoms up, show me what you got
My heart is racing, I'm on fire
I'm getting
So high I can't deny
I feed on love and your desire

One shot, give me what I need
Take me for a ride on the wild side
One shot, take it to the top
Give me all you've got cause I'm running wild
Getting wasted, wasted
Wasted on a love and it feel so good
Getting wasted, wasted
Fill me to the brim I wanna drink that shot

Wasted
Wasted on a love and it feel so good
Getting wasted, wasted
Fill me to the brim I wanna drink that shot

Getting wasted, wasted
Wasted on a love and it feel so good
Getting wasted, wasted
Fill me to the brim I wanna drink that shot

On the wild side
Take it to the top
Drink that shot
