

Finality

Thurisaz

When we all have gone, to the silence of eternity
To first be forgotten, and lost in the records of the earth
Could I still miss you, then, in the time and space after life
When no one is searching anymore
And where we are nowhere to be found

We didn't spend our life together
And I will miss you forever

The choice was mine, to long for a time, that will never come
Though we leave the world apart, I, still went peacefully
Quietly, with you, still, firmly... in my heart

And I will wait forever
I wait...
