Switch To Red

Thurisaz

How we spread fear and justify crime
Sustained ignorance is the way
Feed the rich and bury the poor
Know that to criticize is to betray

As a diabolic mastermind
Embrace our empire
Consolidate the power and
Steal for a noble cause
For this is my crusade
Oh, Supreme me

Switch to red as you proceed
They'll walk in line with faith
Remember you're all freed
So battle must come, I dictate

Demonize and stigmatize
We hold the power, we hold the truth
And values we use wise
Since our goals are all in reach
Wealth is to be maintained
And determined we'll succeed

Obscene display of power
Scatters in their eyes
Burning flags and fists upraised
Defiance spreads and grows
Though, polished faith is what unites
