

## Evacuate

Thursday

Conditions are getting worse  
And there's nothing left I can do  
Gonna leave while I can  
I'm gonna...  
with or without you  
It never used to be like this before  
But it's something I just can't ignore  
I'm gonna leave before it's too late  
Erase my presence - evacuate  
I've had it up to here with lies  
I gotta make different plans  
I'm already rotting inside  
Seems like you'll never understand  
It never used to be like this before  
But it's something I just can't ignore  
I'm gonna leave before it's too late  
Erase my presence - evacuate
