

Female Cop

Thurston Moore

At night, I rock awake.
At night, at bed, awake.
I'd light a rocket light.
A live with cherry sick (?)
Burning to your heart,
Burning, Patti's smart.
Another look at you,
Fax every girl who's blue.

Went on a purple light,
Went on a purple lit,
When all the sea supreme,
When all those candles lit,
Burning to your heart.
Burning, Patti's smart.
Another look at you,
Fax every girl who's blue.

At night, I rock awake.
At night, at bed, awake.
I'd light a rocket light.
A live with cherry sick (?)
Burning to your heart,
Burning, Patti's smart.
Another look at you,
Fax every girl who's blue.
