Everybody gotta lose
So lose then
Everybody got them screws
We lose all of them

It's the weight I feel
Wired to break and bend
Guess I'm made frail
Cut my noose again

High above in the clouds
I'm moving
High above in the clouds
That's where I been

It's the weight I feel
Wired to break and bend
Guess I'm made frail
Cut my noose again

It's the weight I feel
Wired to break and bend
Guess I'm made frail
Cut my noose again
