

# Spiral

ThxSoMch

Can we just burn up our wee- stress  
Roll it up in a spiral  
Up in a spiral, up in a spiral  
Your teeth sunk right into me well  
You sure brought me to life  
Brought me to life, brought me to life

Your fear burns a hole in me  
Just pour it up real high  
Up real high, up real high  
Diseased, if I jump, I'll fly  
Well throw 'em up in the sky  
Up in the sky

Can we just burn up our wee- stress  
Roll it up in a spiral  
Up in a spiral, up in a spiral  
Your teeth sunk right into me well  
You sure brought me to life  
Brought me to life, brought me to life

Come feed me  
Think I just need pills to get right  
Pills to get right, pills to get right  
Defeat me  
Now I don't feel bad when you cry  
Bad when you cry

Can we just burn up our wee- stress  
Roll it up in a spiral  
Up in a spiral, up in a spiral  
Your teeth sunk right into me well  
You sure brought me to life  
Brought me to life, brought me to life
