

# Join Me In Armageddon

Thy Art Is Murder

Join me in Armageddon  
Join me in Armageddon

Bow your fucking heads  
Anointing of the sick  
Show me an arsenal of lies, you f\*cking terrorists

Dress warm for nuclear winter  
In frozen graves where the bodies sleep  
Black fangs of the pagan wolf  
Feast upon the weary sheep  
The weaponry is live  
Another sanctioned hit  
If man is sanctified, I am the heretic

All praise the doomsday machine  
All praise the pendulum's swing  
Flesh falls from a fiery heaven  
Join me in Armageddon

Feel the burn on the back of your neck  
Smell the rotting stench of sulfurous flesh  
Ninety seconds to midnight  
Self destruction is set  
Erase the parasites

Say your last rites

Last rites

Bow your fucking heads  
Anointing of the sick  
An arsenal of lies, you f\*cking terrorists

All praise the doomsday machine  
All praise the pendulums swing  
Flesh falls from a fiery heaven  
Join me in Armageddon  
Join me in Armageddon

All you hold sacred is taken  
World termination

All we've created  
World termination  
All we hold sacred  
World termination  
All will be taken  
World termination

All praise the doomsday machine  
All praise the pendulum's swing  
Flesh falls from a fiery heaven
