

Lesson In Pain

Thy Art Is Murder

Beg for your fucking salvation
Beg

No amnesty
For the ruinous filth of humanity
The carrion cry for exoneration
Beg for your fucking salvation

Your bones are hollow, liars
Marrowless meat bag, virulent manic
Echoes of choirs
Villainous voices drowning in noises
Thrown to the fires
Social agenda, suffer, surrender
Terror, empire
Fear is a weapon, face your reckoning

Ravaging and endless, carriers of vengeance
This blood is a blessing
Flooded with resentment, there is no repentance
Your life is a lesson in pain

No sympathy
You drained our souls
We'll drain your arteries

No amnesty
For the ruinous filth of humanity
The carrion cry for exoneration
Beg for your fucking salvation

Meet your destruction, pariahs
Severed from existence, furious resistance
Echo, the choirs
Rioting masses brimming with madness
Gallows inspire
Legions of victims, poisonous systems
Burning empires
Fear is a weapon, face your reckoning

Ravaging and endless, carriers of vengeance
This blood is a blessing
Flooded with resentment, there is no repentance
Your life is a lesson in pain

No amnesty
For the ruinous filth of humanity
The carrion cry for exoneration
Beg for your fucking salvation

Beg
For your fucking salvation
Beg
For your fucking salvation
No amnesty
For the ruinous filth of humanity
