

# Through the Bridge of Spears

Thy Majestie

Blow the winds of bloodshed their immortal chilling breeze  
Widespread on the lands of Caldbec Hill  
Taking off my head this helmet that's what now I see  
My friends and foes united by their deadly destiny

God have guided my sword towards the final victory  
My men are on their way to Bridge of Spears  
My God be pity and answer to thy servant's final plea  
Don't make me taste the loneliness that always curses kings

Give me wings to command  
And power to spread  
Give the peace to these lands

[CHORUS:]

I've witnessed the slaughter  
In the lands of Caldbec Hill  
I've sent my men to face death  
Was all this meant just for me?  
I've witnessed the slaughter  
In the lands of Caldbec Hill  
I've raised my arms, I've taken their lives  
I'm William the only king

Time has come when I shall rule on these lands  
My word shall be law and my law shall command  
Carve my name with sacred fire  
On the stone that history saved for me

Give me wings to command  
And power to spread  
Give peace to these lands

[CHORUS:]

I've witnessed the slaughter  
In the lands of Caldbec Hill  
I've sent my men to face death  
Was all this meant just for me?  
I've witnessed the slaughter  
In the lands of Cladbec Hill  
I've raised my arms, I've taken their lives  
I'm William the only king
