

Just So You Know

Tiago Iorc

Tuck you in to sleep, cuddling your feet
Give you what you need
Just so you know
Ready now to start kissing every part of you
Just so you know

I'm giving something true
Giving something true, hold on

You taught me how to see the very best in me, who I aim to be
Just so you know
So perfect as you are I'll never be too far from you
Just so you know

I'm giving something true
Giving something true
Giving something true
Giving something

Familiar like the back of my hand
You got it all good
I know you, like the back of my hand
I'm all over you

Familiar like the back of my hand
You got it all good
I know you, like the back of my hand
I'm all over you

Familiar like the back of my hand
You got it all good
I know you, like the back of my hand
I'm all over you

I'm giving something true
Giving something true
Giving something, do hold on
