

# I Can Tell

Tiara Thomas

Look I'm up now I got the feels  
Can you tell I don't know how to deal?  
Don't wanna fuck it up now but it's true  
Yeah, I don't care like I use to  
These niggas just made me vicious now I'm tongue kissing bitches  
Making shit life decisions  
Just tryna get in position to cross shit off my wishlist  
I know you want it too but be careful what you do  
'Cause I do not play by the rules to tell the truth

I know it ain't all about the wealth  
But I rather wipe my tears with hundred dollar bills yeah  
I could read your energy well  
So if you hope I fail  
I could tell, I could tell, I could tell

Look I'm up now I gotta go  
I could tell you don't know how to love  
You probably fuck it up now and it's cool  
Yeah, cause I be gone before you do  
These niggas just wanna touch me so they speaking rubbish  
How I know I can fuck with you with no judgement  
I might could fall in love with you based on my mood  
Tonight I'm on the wave I just took straight shots of the goose  
Ooh something just ain't right  
Look me in my eyes and swear the lies don't hide  
Ooh [?] don't cry  
I don't let it slide because the vibe don't lie

I know it ain't all about the wealth  
But I rather wipe my tears with hundred dollar bills yeah  
I could read your energy well  
So if you hope I fail  
I could tell, I could tell, I could tell  
So if you think it's hell  
I could tell, I could tell, I could tell  
I could tell, I could tell, I could tell  
It ain't all about the wealth  
But I rather wipe my tears with hundred dollar bills yeah  
I could read your energy well  
So if you hope I fail  
I could tell, I could tell, I could tell  
If you think it's hell  
I could tell, I could tell, I could tell  
I could tell, I could tell, I could tell
