

Bring The Summer

Tide Lines

In the light of morning I can see her still
Though I haven't seen her since that day
And if she walked into this room just now I'd know
That I'd a thousand things I'd like to say

Ever since I was a boy I'd loved to hear
The way the river runs, the river flows
And every time I feel contentment drawing near
I know that it is time for me to go

Bring the summer, bring the rain
Bring me anything, I'll see you once again
Bring the autumn, bring the tears
Bring me anything, I'll see you through the years
Through the years

It was a random meeting many years ago
It didn't mean a thing to her or I
In a barroom on a street I didn't know
We drank lead wine and laughed until we cried

Ever since I was a boy I'd loved to hear
The way the river runs, the river flows
And every time I feel contentment drawing near
I know that it is time for me to go

Bring the summer, bring the rain
Bring me anything, I'll see you once again
Bring the autumn, bring the tears
Bring me anything, I'll see you through the years

Bring the summer, bring the rain
Bring me anything, I'll see you once again
Bring the autumn, bring the tears
Bring me anything, I'll see you through the years
Through the years

Ever since I was a boy I'd loved to hear
The way the river runs, the river flows
And every time I feel contentment drawing near
I know that it is time for me to go

Bring the summer, bring the rain
Bring me anything, I'll see you once again
Bring the autumn, bring the tears
Bring me anything, I'll see you through the years

Bring the summer, bring the rain
Bring me anything, I'll see you once again
Bring the autumn, bring the tears
Bring me anything, I'll see you through the years
Through the years
