

Cherry Blossom Sunset

Tide Lines

Never gonna forget cherry blossom sunset
Days we thought we had it all
Glasgow on a hot night, terracotta twilight
Watching where the shadows fall

Stretched right out in the park
Knocking back cheap wine, talking 'bout the good times
Say you're gonna stay until dark
No caring what the morning brings

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now
You can smile but it's over now

Taken by surprise but should've realized that
Someday all the rest would go
Never even stopped to entertain the thought
I guess we didn't wanna know

Stretched right out on the grass
Knocking back cheap wine, talking 'bout the good times
Say it feels good while it lasts
No caring what the morning brings

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend
Dreaming until September
Thought that it would never end
But it's over now

Summer in the air my friend

Dreaming until September
Thought that it would never end
But it's over now
You can smile but it's over now
You can smile but it's over now
