

## Like A Soldier

Tide Lines

I don't know when I first heard  
That it was me and you against the world  
We swore together down at the borderline  
That we'd surrender nothing apart from time

We're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say

We thought we'd reached the bitter end  
When we had nothing left to defend  
But somewhere far away from the drums of war  
I know there is something worth fighting for

So we're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say  
And we're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say

Always end up running like renegades  
But fortune treats you kinder if you give it a chance  
Look it right in the eye, and you're never afraid

We're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say  
We're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say

And we're gonna fight on like a soldier  
We're gonna never regret when it's over  
And we're gonna die when we get older  
So they say
