

# Summer

## Tide Lines

There's something about this  
There's something about this diamond sky  
That's making me feel so free  
You look like the summer  
I feel like a lover in July  
And it kind of appeals to me

Like a western sky on a cloudless night  
When the ocean sings and it feels just right  
Oh, yeah  
It's making me feel so free

Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Girl, you're looking like the summer

I'm feeling nostalgic  
Like there's some kind of magic in my soul  
I just wanna let you know  
It's like an illusion  
And I don't wanna lose you from my mind  
I don't wanna let you go

Like a western sky on a cloudless night  
When the ocean sings and it feels just right  
Oh, yeah  
I don't wanna let you go

Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Girl, you're looking like the summer

Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Oh, the fire's still glowing and everybody's going home  
But we're still going, and girl, you're looking like the summer  
Girl, you're looking like the summer
