

TWO NIGHT

Tierra Whack

I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month
I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month

My last meal might be chicken and fries
I'm black so you should not be surprised
My jokes don't make you laugh so you cry
Boys to men it's so hard to say goodbye

Byes are never good
When will you return
Dead-beat daddy
Throw 'em in a urn
Snotty-nose kids
Avoiding all the germs
Everybody dies
You live and you die

Learning how to deal with it
Said he wouldn't leave but he still did it
Auntie got the tea it didn't spill did it?
Aw man!
I musta forgot how to breathe
Tried to fight the feeling
Like a Apollo Creed
Gotta call from God
I was so relieved
Took like 2 aleve
I wish you agreed
Don't pray to the sky
'Cause I'm underneath

I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month
I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month

It's not my fault
That this is the ending
What I had is all that I was given
In denial. You should be independent
And prepare for when I go missing

Every day I pray
Every day I wake
Sleep is the cousin of death
And I just need a break
Death is real

Life is fake
My advice to you
Make some more mistakes

Learning how to deal with it
Said he wouldn't leave but he still did it
Auntie got the tea it didn't spill did it?
Aw man!
I musta forgot how to breathe
Tried to fight the feeling
Like a Apollo Creed
Gotta call from God
I was so relieved
Took like 2 aleve
I wish you agreed
Don't pray to the sky
'Cause I'm underneath

I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month
I might die tonight
But before I go
Want to let you know
I didn't pay the light bill this month
