

# Be Something

Tiěsto

Red lights feel blue  
I shine with you  
We fight, we bruise  
Makes sense, short fuse

Did you ever wanna know  
We could be something  
Spinning in and out of control  
We could be something

We could  
We could

We could, we could  
We could, we could  
We could

Red lights feel blue  
I shine with you  
We fight, we bruise  
Makes sense, short fuse

Did you ever wanna know  
We could be something  
Spinning in and out of control  
We could be something

We could, we could  
We could, we could

We could, we could  
We could, we could  
We could, we could  
We could, we could
