

# Diamonds

Tiësto

Take me far away  
Looking for a way  
To such great heights  
Watching all the world  
Watching all the world  
Through bloodshot eyes

Oh, and it's perfect when it's all a blur  
Going 'round and 'round again just like a tie-dye shirt  
We're not perfect, yeah we all get hurt  
But we know just what we're made of

Diamonds in the rough  
Yeah we shine the place up  
Show me what you got  
What you think about us  
Diamonds in the rough  
Yeah we shine the place up  
Show me what you got  
What you think about us

Dancing in the rain  
Dance away the pain  
Till we're on fire  
Let the merry go  
Let the merry go round  
Take you higher

Oh, and it's perfect when it's all a blur  
Going 'round and 'round again just like a tie-dye shirt  
We're not perfect, yeah we all get hurt  
But we know just what we're made of

Diamonds in the rough  
Yeah we shine the place up  
Show me what you got  
What you think about us  
Diamonds in the rough  
Yeah we shine the place up  
Show me what you got  
What you think about us
