

Hold Me

Tiěsto

Lost in your eyes every damn night
'Cause it feels right when you hold me
Under the lights watching the tides
'Cause it feels right when you hold me

Hold me, hold me, hold me, hold me
Hold me, hold me, hold me, when you hold me
Hold me, hold me, hold me, hold me
Hold me, 'cause it feels right when you hold me

When you hold me
'Cause it feels right when you hold me

I like the way you're pulling me closer
No words we need to say
It's only me and you in this moment
Here and now, here and now

You're always there to break my fall
You're always what I need and more
You're all that I've been searching for
It's a chain reaction

Lost in your eyes every damn night
'Cause it feels right when you hold me
Under the lights watching the tides
'Cause it feels right when you hold me

When you hold me
'Cause it feels right when you hold me

Lost in your eyes every damn night
'Cause it feels right when you hold me
Under the lights watching the tides
'Cause it feels right when you hold me

When you hold me
When you hold me
When you hold me
When you hold me
