

In the Dark

Tiësto

Like the world around is just breaking
And it feels
Like there's no one else around you
And it's quiet
There is a silence in the darkness
And it sounds
Like the carnival is over

As you walk
In the crowded empty spaces
And you stare
At the emptiness around you
You wanna go
To the city and the bright lights
Get away
From the sinners that surround you

Cause I'll be there and you will be there
And we'll find each other in the dark
And you will see and I'll see it too
Cause we'll be together in the dark

Cause if it is coming for you
Then it's coming for me
Cause I will be there
Cause we need each other in the dark

And if it terrifies you
Then it terrifies me
Cause I will be there
So we've got each other in the dark

As I look into the sky
The stars bright as eyes
You want me to take you over there
I want you to stay with me
Cause you're not the only one
The only one

No no
Don't worry
You're not the only one

Cause if it's coming for you
Then it's coming for me
And I will be there
Cause we need each other in the dark

And if it's panicking you
Then it's panicking me
And I will be there
So we've got each other in the dark
