

Insomnia

Tiësto

On my mind, mmm
Every night, mmm
I'm wasting time, mmm
Wishing I could hold you once more, yeah, yeah
You're on my mind, mmm
Every night, mmm
I'm wasting time, mmm
Wishing I could hold you once more

You're the dream but I can't find no sleep
Lay awake without you holding me
Hear you call a distant melody
You know you keeping me up

When the lights go out
All I see is you in the darkest of my room here
And it drives me wild
When I'm right next to you, I'm just fighting my insomnia
Insomnia, next to ya, next to ya
Insomnia, next to ya, next to ya
When the lights go out
And I'm right next to you, I'm just fighting my insomnia

I'm just fighting, oh yeah
Oh, oh, oh
I'm just fighting, oh yeah
Insomnia, insomnia, oh yeah
Insomnia, insomnia, oh yeah
Oh yeah

Oh
Oh

You're the dream but I can't find no sleep
Lay awake without you holding me
Hear you call a distant melody
You know you keeping me up

Insomnia, next to ya, next to ya
Insomnia, next to ya, next to ya
When the lights go out
And I'm right next to you, I'm just fighting my insomnia
I'm just fighting my insomnia
When I'm right next to you, I'm just fighting my insomnia

On my mind, mmm
Every night, mmm
I'm wasting time, mmm
Wishing I could hold you once more, oh yeah

You're the dream but I can't find no sleep
Lay awake without you holding me
Hear you call a distant melody
You know you keeping me up

When the lights go out
All I see is you in the darkest of my room here

And it drives me wild
When I'm right next to you, I'm just fighting my insomnia
Insomnia, next to ya, next to ya
Insomnia, next to ya, next to ya
When the lights go out
And I'm right next to you, I'm just fighting my insomnia

Oh-woah

Oh-woah

Oh-woah

When I'm right next to you, I'm just fighting my insomnia
I'm just fighting my insomnia
When I'm right next to you, I'm just fighting my insomnia

When I'm right next to you, I'm just fighting my insomnia
