

## Savage

Tiësto

Ah, for now, I'll just let go  
And ah, run up the tab and lose control

No, we ain't got no plans like we did back then  
Takes me back to how we used to feel

We're going savage, we couldn't care less  
No matter how hangover I get I'll do it over again  
Ravage, let's do some damage  
And if I'm getting sober then I will do it over again

Do it over again  
Do it over again  
Do it over again  
Do it over again  
Do it over  
Do it over  
Do it over  
Do it over  
Do it over  
Then I will do it over again

No, we ain't got no plans like we did back then  
Takes me back to how we used to feel

We're going savage, we couldn't care less  
No matter how hangover I get I'll do it over again  
Ravage, let's do some damage  
And if I'm getting sober then I will do it over again

Do it over again  
Do it over again  
Do it over again  
Do it over again  
Do it over  
Do it over  
Do it over  
Do it over  
Do it over  
Then I will do it over again
