

# Shimmer

Tiësto

The sun came up too late  
Before I got to say  
Don't let me get away

I'm six feet from the edge  
But I can catch my breath  
I'll find a place to rest

I don't wanna put you out  
Would I be ruining your day  
Has no one ever told you

Do you know when you go  
All the lights go out, around me  
Do you know when you go, I just wanna disappear  
And take myself away  
In an ordinary day  
You shimmer

A delicate display  
I can't appreciate  
Till you illuminate  
And I scream just to hear myself again  
Over the silence in my head  
And it's killing me away

And I just can't see it straight  
It's like I'm running out of space  
And does no one ever told you

Do you know when you go  
All the lights go out, around me  
Do you know when you go, I just wanna disappear  
And take myself away  
In an ordinary day  
You shimmer  
You shimmer
