

Take Me

Tiësto

Waiting for the light to change from red
Thinking over all the things you said to me
You said to me
All your dreams are dying in the sun
Pretty soon there'll be nowhere left to run away
To run away

You packed your bags to leave by the morning
Destination far off and foreign
It's never or now
It's never or now

Baby won't you take me
Baby won't you take me with you
With you
Baby won't you take me
Baby won't you take me with you
With you
Cause I don't wanna be alone tonight
I don't wanna be alone tonight
Baby won't you take me
Baby won't you take me with you
With you

Memories of a life I leave behind
Take a souvenir to remind me of
The ones that love

Feel my heart it beats like a stopwatch
Running out of time with each tick tock
It's never or now
It's never or now

Baby won't you take me
Baby won't you take me with you
With you
Baby won't you take me
Baby won't you take me with you
With you
Cause I don't wanna be alone tonight
I don't wanna be alone tonight
Baby won't you take me
Baby won't you take me with you
With you
