

Feelings Of Forever

Tiffany Darwish

If there was no tomorrow
Then tonight would never end
If we could freeze
The hands of time
I would stay here in your arms
And not go back again

Cause all I want
Is for you to hold me now
And we can make it
Through this night together
All I need
Is for you to show me how
Cause nothing can stop this
Feeling of forever

I've never felt this close to love
Lyin' here face to face
Far beneath the silver skies
There's no one around
To chase this night away

Cause all I want
Is for you to hold me now
And we can make it
Through this night together
All I need
Is for you to show me how
Cause nothing can stop this
Feeling of forever

The world is ours tonight
As long as we just believe
The feelings that we hold inside
Are in every heart that beats

Cause all I want
Is for you to hold me now
And we can make it
Through this night together
All I need
Is for you to show me how
Cause nothing can stop this
Feeling of forever
