

# Dust Off And Dance

Tiffany

I love how you feel  
Can't help myself  
You're so surreal  
I do believe something's bout to begin  
As we sink beneath our skin

Let's get on our knees  
I'm beggin' you please  
Desire's the sweetest sin  
(Desire's the sweetest sin)

I'll be your new religion  
Without sacrifice  
The forbidden fruit you crave once  
But taste twice

Come on baby dust off and dance  
(Ooh na na, ooh na na na)  
Make your move you got to groove  
The hell with circumstance  
(Ooh na na)  
Dust off and dance

Burning up the sun  
You know it makes the winner hot  
Can't deny what you know is true  
Make you feel brand new  
Don't slam on the breaks  
You've got what it takes  
The party's been missing you  
The party's been missing you

I'll be your model-t  
All cherried out  
No bondo baby  
We can work it out

Come on baby dust off and dance  
(Ooh na na, ooh na na na)  
Make your move you got to groove  
To hell with circumstance  
(Ooh na na, ooh na na na)  
Dust off and dance

There's a whole new world out on the floor  
Where the colored lights shine to adore  
Make you feel like never before  
Give you everything and so much more

Give you everything and so much more

Come on baby dust off and dance  
Let's get crazy now it's your chance  
Make your move you got to groove  
To hell with circumstance  
Come on baby  
Dust off and dance...

(Ooh na na, ooh na na na)...

Dust off and dance...
