

Heaven

Tiffany

You got to get the best of me
'Cause you know that I'm [?]
You can't mess up this recipe
And you'll know when I get it done

Look up to the stars and I say "Yeah"
Look up to the stars and I say "Yeah"

I'm burning like a first degree
Gone [?] to my soul
Let's drift away on moonlit seas
And sail until we're gone

Look up to the stars and I say "Yeah"
Heaven's just a thousand light years away
Look up to the stars and I say "Yeah"

You better get a piece of me
'Cause you know that I'm not done
Let's make it less like ecstasy
Gonna fade into the sun

Look up to the stars and I say "Yeah"
Heaven's just a thousand light years away
Look up to the stars and I say "Yeah"
Heaven's just a thousand light years
Look up to the stars and I say "Yeah"
Hey, hey

Look up to the stars and I say "Yeah"
Heaven's just a thousand light years away
Look up to the stars and I say "Yeah"
Heaven's just a thousand light years
Look up to the stars and I say "Yeah"
Heaven's just a thousand light years away
Look up to the stars and I say "Yeah"
Hey, hey
