

Hey Baby

Tiffany

I'm alone next to you
I can feel everything
My thoughts just rushing by
You're all I want tonight

Walking 'round this little town
Feel you all around
My heart beats when I say your name
Can't wait 'til we get down

Hey baby, do you know?
I never wanna let you go
You're my baby all day and night
Baby, that's alright
Hey baby, don't make me cry
Stop talking all those lies
You never run and you can't hide
Baby you are mine
Baby you are mine

Looking at the stars tonight
I only wish to hold you tight
Can't wait to touch and taste
I want you all in my space

Every time I think of you
My heart begins to pound
Everything that I desire
You're my sweetest sound

Hey baby, do you know?
I never wanna let you go
You're my baby all day and night
Baby, that's alright
Hey baby, don't make me cry
Stop talking all those lies
You never run and you can't hide
Baby you are mine
Baby you are mine

I'm alone next to you
My thoughts just rushing by

Walking 'round this little town
I feel you all around
My heart beats when I say your name
Can't wait 'til we get down

Every time I think of you
My heart begins to pound
Everything that I desire
You're my sweetest sound

Hey baby, do you know?
I never wanna let you go
You're my baby all day and night
Baby, that's alright

Hey baby, don't make me cry
Stop talking all those lies
You never run and you can't hide
Baby you are mine
Baby you are mine
Baby you are mine
Baby you are mine
Oh, yeah
Baby, baby, baby
