

Hey There

Tiffany

Hey there, where you coming from?
I think that we should talk
Hey there, will you look at me?
Let's go and take a walk

I never wanted this show
I never wanted to hurt you
And every time that I go
You think I wanna desert you

So what do you want from me?
What do you want me to tell you?
Isn't it obvious to see?
Don't you know that I love you?
Baby
Baby

Hey there, come over here
You know you're special to me
Baby, don't you understand,
It's not that easy for me?

I never wanted this show
I never meant to confuse you
And every time that I go
You tell me that I will lose you

So what do you want from me?
What do you want me to tell you?
Isn't it obvious to see?
Don't you know that I love you?
Baby
