No Rules

Tiffany

Say it's alright
If you really love me
It's my life
And I really wanted you that night
Was about to break
So we had to just take a chance
Time is not to waste
We couldn't let it slide through our hands

When my heart called
You answered me
Baby, when I was falling
You were there for me

There's no rules in love
Can't you see?
No rules in love
For you and me
No rules in love

Walking through the streets
The echo of our footsteps in time
In between the beats
Tell me that you'll always be mine

So baby can I trust you
Like I'm ready to?
I've waited so long
And I never refused

There's no rules in love
Can't you see?
No rules in love
For you and me
There's no rules in love
Our hearts are free
No rules in love
For you and me
No rules in love

All my life, been living on the same dreams
Sometimes they seemed so real
All my love I held deep inside me
I wanted to feel
I wanted to feel

Baby, now I wonder
What you're doing tonight
I can see you laughing, boy
As I closed my eyes

There's no rules in love
Can't you see?
No rules in love
For you and me
There's no rules in love
Can't you see?

No rules in love
For you and me

There's no rules in love
Can't you see?
No rules in love
For you and me
