

## 3 Weeks

Tiga

Well, it's been  
3 weeks since we said goodbye  
And now how am I hard, as I try  
Supposed to last a whole lifetime

The days are fine  
I keep my mind  
Occupied and satisfied  
I keep my eyes on the consolation prize

But in the night  
I lose the fight  
I toss and turn  
While my fears unite

My teeth grind every time  
The visions come, I wish I was blind  
They're teasing me, endlessly  
With a dream that was, but can never be

I was never meant to be without you  
I was never meant to be without you  
I supposed in time, I will get by  
But I was never meant to be without you

Well, now it's been  
3 weeks since I wrote this song  
Now the future's wrong seems way too long  
I thank the stars you taught me to be strong

And now I walk the line  
Your hand in mine  
Your still my guide, side by side  
I tell myself it's just a matter of time

And now my life keeps movin' by  
And now I hear your voice in mine  
I still smile most of the time  
At memories, our lives intertwined

You're keeping me company  
With a love that was, and will always be

I was never meant to be without you  
I was never meant to be without you  
I supposed in time, I will get by  
But I was never meant to be without you

I was never meant to be without you  
I was never meant to be without you  
I supposed in time, I will get by  
But I was never meant to be without you

I was never meant to be without you  
I was never meant to be without you  
I supposed in time, I will get by  
But I was never meant to be without you
