## 3 Weeks

Well, it's been 3 weeks since we said goodbye And now how am I hard, as I try Supposed to last a whole lifetime

The days are fine I keep my mind Occupied and satisfied I keep my eyes on the consolation prize

But in the night I lose the fight I toss and turn While my fears unite

My teeth grind every time The visions come, I wish I was blind They're teasing me, endlessly With a dream that was, but can never be

I was never meant to be without you I was never meant to be without you I supposed in time, I will get by But I was never meant to be without you

Well, now it's been 3 weeks since I wrote this song Now the future's wrong seems way too long I thank the stars you taught me to be strong

And now I walk the line Your hand in mine Your still my guide, side by side I tell myself it's just a matter of time

And now my life keeps movin' by And now I hear your voice in mine I still smile most of the time At memories, our lives intertwined

You're keeping me company With a love that was, and will always be

I was never meant to be without you I was never meant to be without you I supposed in time, I will get by But I was never meant to be without you

I was never meant to be without you I was never meant to be without you I supposed in time, I will get by But I was never meant to be without you

I was never meant to be without you I was never meant to be without you I supposed in time, I will get by Jištěne z pisnicky-akordy.cz But I was never meant to be without you
